

PROJECT OVERSEER

Installation - uninstallation procedure

1 Requirements

Players :

Project Overseer is a game that is played exclusively in multiplayer. A party is composed by 2 to 4 people, with only 1 of which being in virtual reality. The remaining players must be on computer.

Supported platforms :

Project Overseer can be played on any recent computer running on Windows. As for virtual reality, the *Meta Quest 2* headset is the only one that can run this game.

2 Computer

2.1 Installation

Get the game installer from our website or from the USB key in the box. Then follow these steps :

1. Launch *ProjectOverseerInstaller.exe*, accept the administrator rights then select your installation language and click on *OK*.
2. Change the installation folder should you feel the need to do so. Otherwise, keep the default one. Click on *Next*.
3. Set the options that will appear as you wish and then click on *Install* and *Finish*.

The installation will be done automatically, upon completion, the game will start if you had selected the option to do so during the installation.

2.2 Uninstallation

To uninstall *Project Overseer*, go to the *Control Panel* and follow these steps :

1. At the bottom of the left-hand column, under the tab *Programs*, click on *Uninstall a program*.
2. Look in the list for the name *Project Overseer* and double click on it.
3. Accept administrator rights and confirm the uninstallation.

Project Overseer is now uninstalled from your machine.

3 Meta Quest 2

3.1 Installation

To install *Project Overseer* on your headset, you will need a computer and a USB to USB-C cable. The software *SideQuest* will need to be installed on the computer to allow data transfer with the headset. In addition, your VR headset will need to be in developer mode. Many resources are available online to help you with these requirements.

Once done, follow these steps :

1. Get the file *projectOverseer.apk* from our website or from the USB key of the installation box.
2. Connect your headset to the computer with your USB cable and authorize access to the files from the headset.
3. On the computer, launch *SideQuest* and make sure that your headset is well connected (green light on the top left of the application).
4. Click on the icon "*Install APK file from folder on computer*" and look for the file "*ProjectOverseer.apk*" you have previously provided yourself then double click on it.
5. The installation should start and should not last more than 10 to 20 seconds.
6. Now, to launch the game, go to the menu "*Apps*" to filter the applications by "*Unknown sources*". You will then see our game, *Project Overseer*, appear.

The installation of our game is now complete on your *Meta Quest 2*.

3.2 Uninstallation

To uninstall our game, proceed as follows :

1. Go to the menu "*Apps*" to filter the applications by "*Unknown sources*". You will then see *Project Overseer* appear.
2. Select the 3 dots to the right of the game name and press "*Uninstall*".

The uninstallation of our game is now finished on your *Meta Quest 2*.
